## Directions For Product Use

### HoCoGro Compost

HoCoGro Compost is a 100% organic soil amendment made locally from yard trim, grass clippings, leaves, post-consumer food scrap, and horse manure. It is registered by the Maryland Department of Agriculture and is a participant in the US Composting Council's Seal of Testing Assurance program. The latest lab results are available on the Alpha Ridge Landfill webpage.

### Directions for Use

#### Top Dressing of Lawns

Mow lawn to normal height. Spread approximately 1/4" of compost across existing turf. In areas where grass blades have been covered and do not stand, rake area to uncover lawn. For best results aerate lawn before spreading compost.

#### Soil for Planters, Perennials, Trees and Shrubs

Mix compost (one part by volume) into planter soil (two parts by volume). Mix thoroughly. For best results, check soil pH and adjust for plant's preferred pH.

#### Garden Preparation

Spread compost up to 2" thick over area requiring soil amendment. Till compost into soil to a depth of 4" to 6" deep to create consistent soil. For best results, check pH and nutrients with a soil analysis and adjust per recommendations. Do not plant seeds or seedlings directly into compost.

*Note: The USCC will not assess whether or not, or to what extent, these directions are appropriate. It is the Compost Manufacturer's responsibility alone to ensure that they are.*

For additional information pertaining to compost use, the specific compost parameters tested for within the Seal of Testing Assurance Program, or the Program in general, log onto the US Composting Council's website at <https://www.compostingcouncil.org>.

Participants in the United States Composting Council's Seal of Testing Assurance Program have shown the commitment to test their compost products on a prescribed basis, and provide this date, along with compost and use instructions, as a means to better serve the needs of their compost customers.

This compost product has been sampled and tested as required by the Seal of Testing Assurance Program on the United States Composting Council (USCC) using certain methods from the **Test Methods for the Examination of Compost and Composting** manual. Test results are available upon request by contacting the compost producer (address at top of this Compost Technical Data Sheet). The USCC makes no warranties regarding this product or its content, quality, or suitability for any particular use. Nutrients data are for informational purposes only and do not constitute, in part or whole, a guaranteed analysis.
