## **Truck rolls backwards, killing driver in Columbia**

Howard County police are investigating a fatal pedestrian collision that occurred in Columbia today.

Officers were called to the 10000 block of Wincopin Circle around 4 p.m. Investigators believe that the driver of a Ford F-150 exited the truck, but failed to put the transmission into “park.” It appears that the truck, which was on an incline, rolled backwards and struck the driver. He was pronounced dead at the scene.

No one else was involved in the incident. There were no other injuries. Traffic has not been affected in the area.

The driver will be identified after his family has been notified of his death.
