

School Zone Speed Camera Report to the County Council

Howard County Police Department

Lisa D. Myers, Chief of Police

March 2020

Executive Summary

The Howard County Department of Police has successfully operated a Speed Camera Program in school zones since enabling legislation was passed in 2011. Our program was designed to provide the police department with another tool to address the community's number-one complaint: speeding on residential and school zone roadways. You will find in this report that our program continues to successfully provide additional support to our traditional speed enforcement efforts.

Our research shows that the program has reduced speeds on eighty-four percent (84%) of the school zone roadways in 2019 when compared to studies completed prior to the start of our program. Since our program began, we have also reduced the number of collisions occurring on those roadways by eleven percent (11%). The program is having the effect we have worked for from the beginning. Drivers are changing their behaviors and roads around schools are getting safer.

In 2019, the program resulted in 29,941 speeding citations being mailed to vehicle owners, a six percent (6%) increase compared to 2018. This slight increase can be attributed to the fall addition of two speed detection systems. The program has been self-funded since it was launched in 2011. In Fiscal Year 2019, the program collected \$136,635 in funds over the cost of running the program which is required by law to be spent solely for public safety purposes, including pedestrian safety programs.

The following report is an analysis that addresses all the reporting requirements outlined in the Howard County Code. I am confident that you will agree that the Speed Camera Program continues to be effective, efficient, fair, and a true benefit to safety in our school zones.

A handwritten signature in blue ink that reads "Lisa D. Myers".

Lisa D. Myers
Chief of Police

Program Overview:

Speed Camera legislation was introduced before the Howard County Council in the spring of 2011. The legislation authorized the Department of Police to use speed monitoring systems in school zones. The overall goal of the Speed Camera Program was to change driver behavior and encourage them to slow down.

School zones within Howard County are established in accordance with Section 21-803.1 of the Transportation Article of the Annotated Code of Maryland which defines a school zone as any roadway segment within up to a half-mile radius of an eligible school. School zones on county roads are approved by the Department of Public Works if that part of the road has a reasonable nexus or proximity to a school or school walking route.

In May 2011, the County Council passed Council Bill 13-2011, authorizing the use of Speed Cameras in Howard County. A 30-day warning period began on October 15, 2011 and the program began issuing civil citations on November 16, 2011.

The Howard County program began with two (2) manned mobile systems (vans), which do not require roadway improvements or roadway construction, resulting in no inconvenience to the public. Only members of the police department who are certified to operate the camera system and equipment are permitted to staff the speed camera vans.

At the start of the 2013-2014 school-year, two (2) additional speed detection instruments were added. Prior to the start of the 2019-2020 school-year, two (2) additional speed detection instruments were added. These instruments, called Portable Camera Units (PCUs), are housed in cabinets that are bolted to concrete pads. The PCUs are used in school zones where the road configurations make it challenging to safely use the speed camera vans. The speed camera vans and PCUs equal a total of six (6) speed detection instruments that are rotated throughout the county school zones.

School zone speed enforcement takes place Monday through Friday from 6 a.m. to 8 p.m., in accordance with Maryland State Law, Transportation Article 21-809. During the school system's winter and spring breaks, one van and the PCUs are operated. Enforcement efforts are concentrated in school zones where activities take place. During the summer break, enforcement efforts are concentrated at schools that host summer school and recreational programs.

Every designated school zone is posted with advanced warning notification consisting of a “School Zone” sign, a sign displaying the speed limit, and a “Photo Enforced” sign. In addition, all roadways where the speed camera units will be assigned are listed on the Howard County Police Department’s website at least one week in advance. The website also contains a list of all the school zone roadways and areas where automated enforcement can take place.

The program is designed as an additional tool to supplement the efforts of patrol officers to slow down speeding drivers. The efforts of the staff specifically assigned to the Speed Camera Program in 2019 resulted in two hundred and forty-nine (249) days of enforcement, totaling 12,705 hours and 29,941 speeding violations mailed. During the same period, our patrol officers, who are tasked with a multitude of responsibilities, such as responding to emergency calls, writing reports, and handling investigations; spent approximately 2,514 hours conducting RADAR and LASER speed enforcement and issued 5,832 speeding citations. It is clear the automated Speed Camera Program allows us to focus on speeding in school zones in a way we simply otherwise could not.

These enforcement efforts have resulted in a lowering of the 85th percentile speed on eighty-four percent (84%) of the school zone roadways since the program began in October 2011.

A more complete look at our enforcement efforts is provided in Section 1 and **Appendix A**.

Contents

The following report includes eight (8) sections as required in Howard County Code, *Title 21- Traffic Control and Transportation, Subtitle 6 Speed Camera Monitoring Systems*.

- Section 1.** Enforcement Activity to Include Location and Frequency of the Placement of Speed Monitoring Systems
- Section 2.** Citation Information to include Violations Photographed, Rejected, Issued, Appealed and Final Adjudication
- Section 3.** Collision Information, a Comparison of Collisions Before and After Enforcement
- Section 4.** Updated Speed Surveys
- Section 5.** Financial Information to include Program Costs, Vendors Fees, Total Fines Collected, Excess Fines, Use of Excess Fines
- Section 6.** List of School Zones highlighting any changes
- Section 7.** Major Problems / Irregularities
- Section 8.** Program Recommendations
- Appendix A.** Client Summary Report by Location
- Appendix B.** Speed Surveys
- Appendix C.** Enforcement Location Codes

Section 1. Enforcement Activity to Include Locations/Frequency of Placement

Howard County currently has seventy-seven (77) county schools and we conduct enforcement at twelve (12) private schools which provides a total of one hundred and ninety-nine (199) possible enforcement locations. The complete 2019 enforcement listing, to include the frequency on each roadway, is available in **Appendix A**. Our goal is to conduct enforcement on all School Zone roads and our systems are rotated throughout all those roadways. School Zones with more significant speeding problems as determined by surveys, receive additional attention. Residents may request increased efforts be given to roads where they observe speeding problems.

The locations where the fastest speeds occurred during 2019 are listed below:

74 MPH / 30 MPH Zone – Eastbound Tamar Drive – Long Reach High School
66 MPH / 25 MPH Zone – Westbound Kilimanjaro Road – Oakland Mills High School
90 MPH / 50 MPH Zone – Westbound Old Frederick Road – Mt. Airy Christian Academy
80 MPH / 40 MPH Zone – Eastbound Frederick Road – Manor Woods Elementary School
73 MPH / 35 MPH Zone - Southbound Centennial Lane – Centennial High School
72 MPH / 35 MPH Zone - Westbound Burntwoods Road – Glenelg High School
71 MPH / 35 MPH Zone – Northbound Centennial Lane – Centennial Elementary School
66 MPH / 30 MPH Zone – Westbound Triadelphia Road – Folly Quarter Middle
65 MPH / 30 MPH Zone – Westbound Landing Road – Trinity School
69 MPH / 35 MPH Zone – Eastbound Frederick Road – Lisbon Elementary School

Citations were issued for all the above violations.

Section 2. Citation Information to Include Violations Photographed, Rejected, Issued

In 2019, there were 33,073 possible violations recorded by our detection equipment; however, only 29,941 citations were mailed. The difference in the number of possible violations recorded and the number of citations mailed is due to our multi-level review process and the rejection of possible violations based upon our strict quality-control measures. The number of violations rejected and the reason for each is documented in **Appendix A**.

Possible Violations	33,073
Violations Rejected	2,976
Violations Post-Print Rejected	156
Total Violations Rejected	3,132
Citations Mailed	29,941

The Howard County Department of Police conduct three (3) reviews of potential violations prior to them being sent to the vendor for printing. The first review is called *Pre-Approval* and is completed by a police civilian employee. The second review is called *Approval* and must be completed by a sworn police officer in accordance with the law.

During the review process, we rejected 2,976 possible violations for reasons including:

- Car Obstructed – View of vehicle is obstructed by another vehicle
- Clarity of Plate – Clarity of plate is not satisfactory for issuance
- Dark Environment – Environment is too dark to distinguish vehicle
- Plate Obstructed- Part or all plate characters obstructed
- Vehicle Match Failure – MVA return does not match vehicle type in photo
- DMV No Hit – MVA information return did not occur within the 14 or 30-day time frame
- Stationary Object Visible – Fixed Object is not visible in both photographs
- Plate Damage – Damage or degraded characters make them illegible
- No Plate – Registration Plate not visible on violation photos
- Glare on Plate – excessive reflective glare on the registration plate

The third review takes place during our Post-Print Review and Rejection process. During that process, a police employee reviews each paper citation to ensure that it meets our strict criteria for mailing, even if the electronic image was acceptable.

During the Post-Print Review process, we rejected one hundred & fifty-six (156) printed citations for reasons including:

- unclear registration plate
- lack of a fixed object in the photo
- photos were too dark
- photos were generally unclear
- registration plate was obstructed

Even though these one hundred and fifty-six (156) citations were acceptable when viewed on the computer due to the ability to enlarge the photographs, they were rejected upon reviewing the final printed product.

Emergency vehicle operators are also issued citations if they were detected exceeding the threshold speed and were not on emergency calls. In total, two hundred and twelve (212) emergency vehicles (fire and police, including those from other jurisdictions) were detected speeding. Of those, one hundred and fifty-eight (158) were on emergency calls; the remaining fifty-four (54) cases resulted in citations being issued. Sixty (60) non-emergency government vehicles (Howard County, Federal and other jurisdictions) were detected exceeding the threshold speed resulting in citations being issued. The fines associated with these citations were paid by the vehicle operator.

School buses, which are owned by contractors, received fourteen (14) citations during this reporting period; a seventeen percent (17%) decrease when compared to 2018. These citations were paid by the bus contractor or the bus operator.

Of the 29,941 vehicle owners who received citations in 2019, twenty-one (21) chose to appear in court, a fifty-seven percent (57%) increase compared to 2018 and a fifty-eight percent (58%) decrease from the start of our program.

Cases Adjudicated in Court 2019

Month	Cases Scheduled	Guilty	Not Guilty	% Guilty	% Not Guilty
January	2	2	0	100 %	0 %
February	2	1	1	50%	50%
March	4	4	0	100%	0%
April	1	1	0	100%	0%
May	4	4	0	100%	0%
June	0	0	0	n/a	n/a
July	1	1	0	100%	0%
August	1	1	0	100%	0%
September	3	3	0	100%	0%
October	3	3	0	100%	0%
November	0	0	0	n/a	n/a
December	0	0	0	n/a	n/a
2019 Totals	21	20	1	95.23%	4.77%

**Judges have used some judicial discretion in hearing these cases and in the past made findings of “not guilty”. These findings did not involve questions or concerns about the validity of the equipment, its operation or the program.*

Section 3. Collision Information/Comparison

In 2009-2010, a 5-year study of collisions in Howard County school zones was conducted for the consideration of automated speed cameras. The study showed that we averaged one hundred and sixty-two (162) collisions per year, including fourteen (14) personal injury collisions and one hundred and forty-eight (148) property damage collisions. A recent review of the 2019 school zone collisions shows a total of one hundred and thirty-one (131) collisions, an eleven percent (11%) decrease from the initial 5-year study. Of those one hundred and thirty-one (131) collisions, thirteen (13) were personal injury collisions and one hundred and eighteen (118) were property damage collisions.

Section 4. Updated Speed Surveys

The initial school zone speed studies were conducted in 2009-2010. School zone speed studies for the current school year were completed in the areas where enforcement was conducted. These studies show that our enforcement efforts have resulted in a lowering of the 85th percentile speed on eighty-four percent (84%) of the studied school zone roadway enforcement locations by as much as twelve (12) MPH at one location.

The results of the speed surveys are in **Appendix B** and contain both the pre-enforcement and post-enforcement study information.

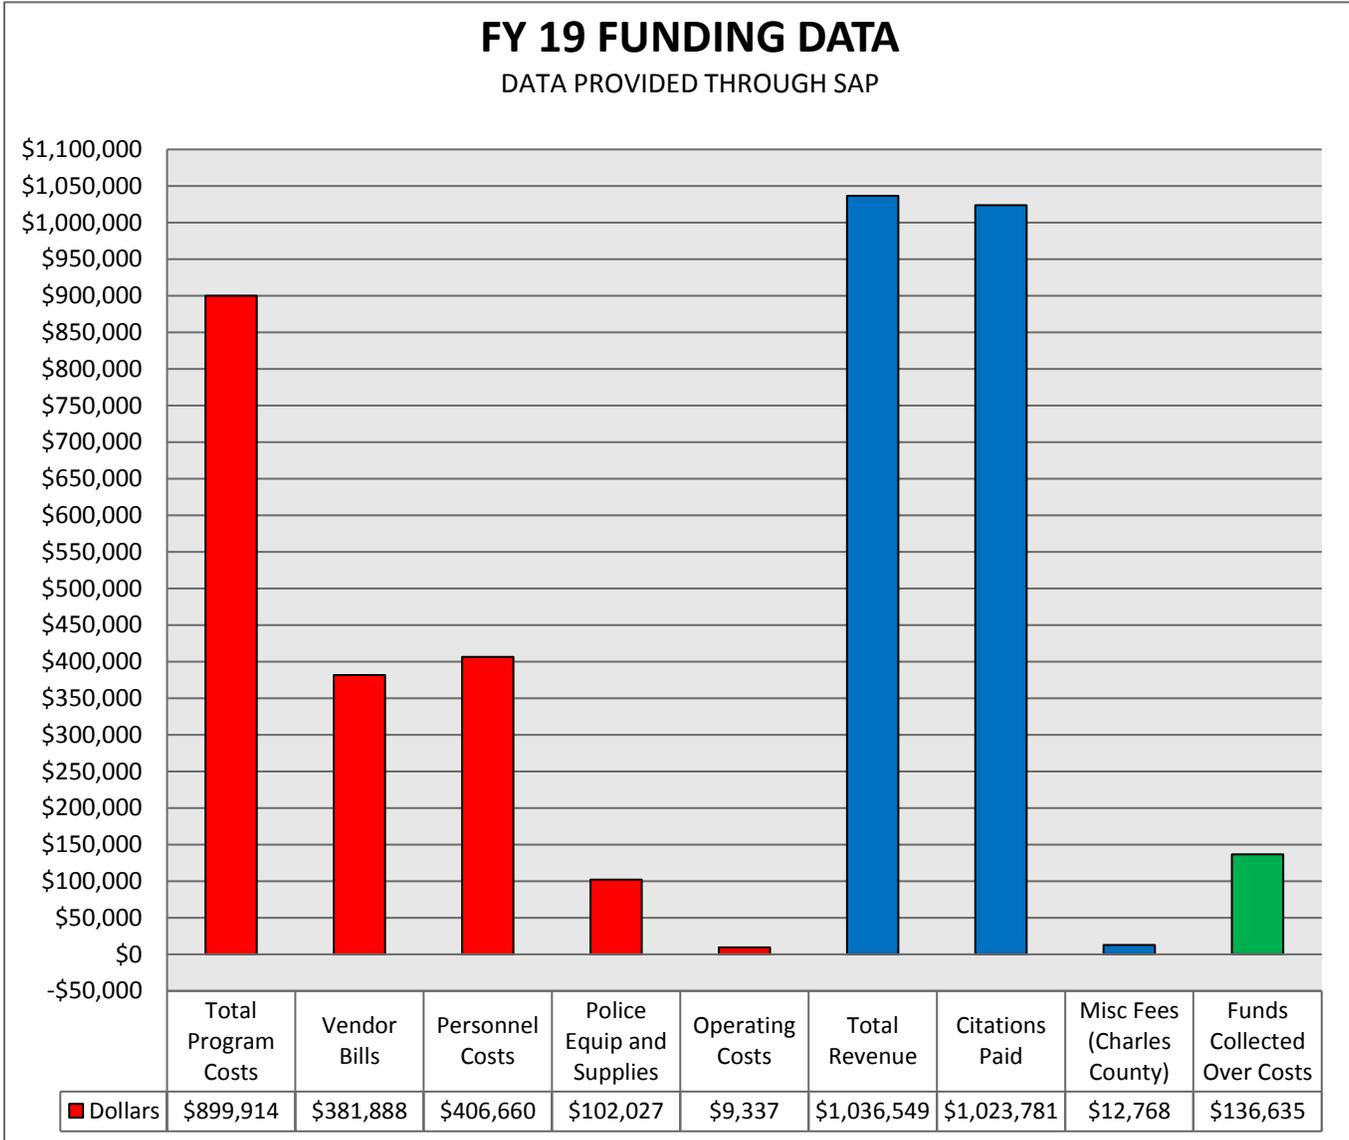

Both the pre-enforcement and post-enforcement surveys were conducted in school zones for a 48-hour period when school was in session for both days.

Section 5. Financial Information to Include Program Costs

During Fiscal Year 2019, the Speed Camera Program cost a total of \$899,914.00 to operate which included \$381,888.00 in vendor billing, \$406,660.18 in personnel costs, \$102,027.90 in Police Equipment and Supplies and \$9,337.92 in general operating costs. The total program revenue was \$1,036,549 which included \$1,023,781.00 in fines collected from citations and \$12,768.00 in fees paid by the Charles County Sheriff's Office. This resulted in \$136,635.00 in funds collected over program costs.

All funds collected over program costs are required by law to be spent solely for public safety purposes. During Fiscal Year 2019, \$16,096 was used to purchase five Stalker DSR RADAR Units, \$23,840.00 to purchase 50 Intoximeters Alco-Sensor FST Kits, \$18,946.40 to purchase sixteen Physio Control Automated External Defibrillators and \$36,085.00 to purchase an Intrepid Networks Critical Incident Negotiators Throw Phone System.

In addition, \$700,000.00 was withdrawn from the Speed Camera Fund for School Crosswalk Improvement Projects that included modification of crosswalks, raised crosswalks, ADA ramps, and other roadway retrofits to provide for an enhanced walking route to school.

Charles County Sheriff's Office is our Speed Camera Program Partner. Charles County personnel conduct their own Pre-Approval and Approval of possible violations and send them to the vendor to be printed. The printed citations are then reviewed by a Howard County Police civilian employee for the Post-Print Rejection Process. The Howard County Speed Camera Program Administrator also acts as the liaison between Charles County and the vendor. The Charles County Sheriff's Office is charged a monthly fee for the services provided by Howard County Police personnel.

Section 6. List of School Zones and Any Changes

In 2019, the Howard County Department of Public Works' Traffic Engineering Division made no changes to the School Zones on county-maintained roadways. However, the Maryland Department of Transportation, State Highway Administration lowered Speed Limits on two State maintained School Zones. The Speed Limit on Old Frederick Road near Marriotts Ridge High School was lowered to 40 MPH from 50 MPH on May 3, 2019. On May 16, 2019, they lowered the Speed Limit on Scaggsville Road near Reservoir High School from 45 MPH to 35 MPH. These speed limit reductions were the result of a state-wide SHA School Zone evaluation of state maintained roadways.

See **Appendix C** for a complete list of the School Zone Enforcement Locations.

Section 7. Major Problems or Irregularities

The program did not encounter any major problems in 2019.

Minimal public opposition: During 2019, overt driver opposition to the program continued to diminish to simply drivers yelling obscenities at the van operator. There were no incidents of objects being thrown at the vans, however a PCU cabinet was targeted once.

On August 14, 2019, overnight, the PCU cabinet on St. Johns Lane at St. Johns Elementary School sustained minor cabinet damage in the lower cabinet area. It appears that someone struck the lower cabinet with an unknown object, to dislodge the cabinet from the base. The impact dented the cabinet but it remained bolted to the base. No enforcement time was lost as the detection system was not affected.

In 2014, Maryland Legislators amended the Speed Camera Legislation and required that each jurisdiction designate an official employee to investigate and respond to questions or concerns about the local jurisdiction's speed monitoring system program. This local designee may not be involved in any review during the citation processing. The Chief of Police determined that our local designee, "Ombudsman", shall be the Professional Standards Section Sergeant.

This legislation was effective in 2015 and the Ombudsman was asked in writing to review five (5) citations. In 2019, the Ombudsman was asked to review three (3) citations.

The first case questioned whether the vehicle owner should receive two citations on the same roadway within ten minutes of each other. The review showed that the system was working properly and the citations were valid.

The second case questioned how the vehicle operator could have been speeding when they resided five minutes from the roadway where the violation took place. While not a true "Ombudsman" case,

the inquiry was forwarded to the Ombudsman because the letter was addressed to them. The review showed that the system was working properly and the citation was valid.

The final case questioned the use of the “fixed object” in our violation photographs. The vehicle owner tried to establish their own speed measurements from the photographs using the fixed object. The fixed object in the photographs is not used by the detection system to determine the speed of the vehicle, but it simply in the photograph to show relative motion to the fixed object when looking at both photographs. The Ombudsman reviewed the system procedures and methods used to determine vehicle speeds and determined that the system was working properly and the citation was valid

It should be noted that neither of these inquires questioned the validity of the Vitronic PoliScan Speed Detection System or our operators.

Section 8. Program Recommendations

The Howard County Speed Camera program continues to demonstrate success by reducing speeds and collisions in school zones compared to the start of the program. Driver opposition and inquiries to the *Ombudsman* have reduced significantly. The days and hours of documented enforcement show that this program is a dedicated resource which truly enhances our ability to improve safety in school zones.

The program provides an additional tool that supplements the efforts of patrol officers in furtherance of one of our department goals: ***Save Lives, Prevent Collisions and Facilitate the Efficient Movement of Vehicular and Pedestrian Traffic.***

The County Code authorizes the use of up to eight (8) speed monitoring systems. In 2013, the program expanded from two (2) mobile detection units to four (4) units with the addition of two (2) PCUs. In 2019, the program added two (2) PCUs bringing our total detection system number to six (6). The six (6) systems are assisting in answering community requests for additional enforcement time.

Annual reviews of our enforcement locations continue to identify school zones not conducive for van operations that would benefit from the use of a PCU. The Speed Camera Program will continue to use these six (6) speed monitoring systems and will assess our enforcement locations; adding PCU pad locations where appropriate.

The Howard County Department of Police continues to believe that the Howard County Speed Camera Program serves as a model for other jurisdictions.

APPENDIX A

Client Summary Report By Location

This appendix consists of a **Client Summary Report By Location** for each School Zone in which enforcement was conducted. It includes the number of days/hours of enforcement, the total number of Events, the number of possible violations, the number of citations issued, and the number of and reasons why Events did not become possible violations. It also details the number of rejections and the reason for each.

Within the **Client Summary Report By Location**, the following terms/headings have the listed meaning:

Location – The location enforcement took place. The preceding number is simply a numerical value given to each location used to reference data for that location.

Events – The total number of photographs taken at a particular location. These can be violation photographs or testing photographs. Our technicians conduct a self-test of the detection instruments almost hourly. At the end of each test, a Test Shot or Next Vehicle Photo is taken. Test shots are also taken during the initial setup of the instruments and throughout the day to monitor the “F- Stop” settings on the cameras making sure that the proper amount of light is available thru the lens.

Possible Violations – Total number of Events minus the Test Shots.

Violations Mailed – The number of citations mailed obtained from subtracting the number of ACS & Police Rejects from the number of Possible Violations.

In Process – The number of possible violations still in the processing phase when the report was generated.

ACS & Police Rejects – Total number of violations that were rejected by either the vendor or the police reviewers.

Rejected violations fall into one of two categories – Controllable and Uncontrollable. Controllable rejects are related to vendor / equipment issues. Uncontrollable rejects include all of the other reasons that a possible violation would be rejected; such as an unclear or obstructed tag. Since Howard County Police personnel set up, test, and operate the system, the majority of the rejected violations fall under Uncontrollable category.

Violations Mailed – The status and number of mailed citations at each level of the process.

1st Notice Mailed – The initial citation.

2nd Notice Mailed – A late notice mailed 46 days after the violation occurred if the citation is unpaid.

4th Notice – This is the Final Notice mailed to the vehicle owner at day 106 – warning them of legal action on unpaid citations.
