SDS / Chemical Management
MSDSOnline Inc.

A Risk Management Training

Employees are able to search for Safety Data in the Howard County database by Location, Manufacturer, or All Products. Employees can also search the entire MSDSonline database by clicking the MSDSonline Search tab.

The screenshot displays the MSDSonline interface. At the top left is the Howard County Maryland logo, and at the top right is the MSDSonline logo with the tagline "a velocityEHS solution". Below the logos are two tabs: "Safety Center" and "MSDS Search". The main content area is titled "Locations" and features a search bar labeled "Search by Location Name" with a magnifying glass icon. Below the search bar are four filter buttons: "Level 1" (red), "Level 2" (purple), "Level 3" (blue), and "Level 4" (green). A list of location categories is shown, each with a plus sign and a count: "FLEET & HIGHWAYS (1020)", "PUBLIC WORKS (1997)", "RECREATION & PARKS (1152)", and "UNKNOWN LOCATION (85)". An orange arrow points from the "FLEET & HIGHWAYS (1020)" entry in the main list to a detailed view of this category. This detailed view shows a search bar, the same filter buttons, and a tree structure of sub-locations: "FLEET & HIGHWAYS (1020)" (expanded), "COOKSVILLE (365)", "DAYTON (182)", "GUILFORD (REC & PARKS) (82)", "MAYFIELD (329)", and "RIDGE ROAD (210)". Below these are "PUBLIC WORKS (1997)", "RECREATION & PARKS (1152)", and "UNKNOWN LOCATION (85)".
