Opioid overdose

Since last Thursday's daily crime bulletin, police responded to four suspected overdose cases—three non-fatal and one fatal. Naloxone, also known as Narcan, was administered in one of the non-fatal overdoses. Narcan is a medication that reverses the effect of an opioid overdose. In two of the non-fatal overdoses, the person was transported to the hospital for treatment.

2017 YTD Total Overdoses:

Fatal*: 48

Non-Fatal: 149

*In fatal cases, some deaths are pending autopsy results for opioids and/or other substances. Numbers may fluctuate.

Of the 149 non-fatal opioid overdoses, Narcan was administered in 135 incidents.
