Types of Investment Instruments

<u>Bankers Acceptances (BA's):</u> Financial transactions involving the import or export of goods. A bank agrees to lend money to an importer to finance the purchase of goods. The bank then sells this agreement to an investor (the County) who receives compensation in the form of interest.

Characteristics:

- 1. Very safe: There has never been a BA failure in their history
- 2. Can only purchase BA's from banks rated A1 or P1
- 3. Three guarantees back this investment:
 - Obligation to pay by the importer
 - b. Guarantee from the accepting bank
 - c. The goods themselves
- 4. Maturities less than 180 days
- 5. Generally higher yielding than Repos

Restrictions: The County currently does not purchase Japanese BA's.

<u>Certificates of Deposits:</u> A time deposit with a specific maturity evidenced by a certificate. All deposits held in minority or community banks.

<u>Money Market Funds:</u> Current holdings include the Maryland Local Government Investment Pool (MLGIP) and Goldman Sachs. MLGIP is designed to provide all local government units of the State an Investment vehicle for the short-term investment of funds. The County's cash in these money market funds is obtainable on demand.

Repurchase Agreement (Repo): An investment contract involving the temporary transfer of ownership of U.S. Government securities between a broker and an investor (the County). A broker agrees to sell U.S. Treasury or Government Agency Securities to the County and agrees to repurchase them at a fixed price on a fixed date. The County receives the original purchase price and compensation in the form of interest on the maturity date.

Characteristics:

- Very safe: only collateralized U.S. Government securities
- 2. Very flexible: maturities from one day to one year
- 3. Higher yields than purchasing securities outright

<u>U.S. Treasury and Government Agency Securities:</u> Considered the safest investments in the world. The U.S. Government and its agency issue these securities to finance their operations. Maturities range from three months to 30 years, however, the County, per our investment policy, is limited to five-year maturities.

Characteristics:

- Very safe
- 2. Very liquid: can be sold very easily
