Zoning Map Amendment Information

Explain the reason for the requested amendment to the Zoning Map.

The Petitioner is requesting to rezone the subject properties in order to be able to develop each property with a single family detached home. Single family detached homes are not permitted under the existing TOD zoning district.

What is the present use of the subject property?

Both parcels are currently unimproved.

Explain the reason why the present zoning classification is not satisfactory.

The Petitioner is not able to use the subject properties in its present zoning classification. The limited nature of the permitted uses under the TOD District causes an inability to use the subject properties; for example, the subject properties are too small to accommodate residential development and are also too small to accommodate the required parking areas for the non-residential uses. Please see the attached Supplement for additional information.

Provide a detailed justification statement explaining how the proposed amendment will be in harmony with current General Plan for Howard County.

As stated above, the Petition intends to develop the subject properties with single family detached dwellings if this Petition is approved. The proposed zoning map amendment will be in harmony with the General Plan for Howard County and will not have the potential to adversely affect the surrounding and vicinal properties. Generally, the proposed zoning map amendments will further the HOCO By Design DN-3 Policy Statement by promoting homeownership in Howard County.

Will the proposed zoning district result in adverse impact on surrounding properties? Please explain.

The proposed use of the property is for residential (single-family detached) which is in keeping with the character of the surrounding neighborhood and therefore will not result in adverse impact on the surrounding and vicinal properties.

Is the subject property currently served by public water, sewerage, and public roads?

The subject properties are both within the metropolitan district and are currently available to be served by public water, sewerage, and public roads.

Are there any other factors which the petitioner desire the Board to consider including copies of any written reports intended to be introduced at the hearing and a written summary of verbal evidence of any expert which will be proffered at the hearing?

The character of the neighborhood is residential, consisting of single-family detached homes. The subject properties do not have internal access to the developed TOD zoned area adjacent to the Dorsey Marc Station. The development of non-residential uses at this particular location would be very disruptive and out of character for the residential neighborhood, and it would result in additional commercial traffic & vehicles. Please see the attached Supplement for additional information.

Section 16.205.(c)(1)(iii) - Statement of justification in support of the request. The statement shall set forth the legal basis by which the requested amendment may be approved, and factual reasons showing why approval of the request will not be detrimental to the public health, safety, and welfare.

The Petitioner alleges that with respect to both parcels, there is a mistake in the current zoning. The County Council erred by applying the TOD district to both parcels when it adopted the current zoning map by voting to approve CB 32-2013 ("CB32") on July 26, 2013. CB32 was later approved by the County Executive on August 6, 2013. The basis of this zoning mistake is two-fold. First, at the time of the adoption of CB32, the County Council was acting under a mistake of fact. Specifically, due to a mistake on the 2013 Comprehensive Zoning map, the Council did not know that Parcel 706 and Parcel 726 were separate parcels. Rather, the 2013 Comprehensive Zoning map presented to the County Council mistakenly depicted the area containing the subject properties as a single larger parcel consisting of approximately 1.11 acres. See attached **Exhibit A**. In actuality, this area was comprised of four (4) separate and much smaller parcels under diverse ownership. At the time the County Council adopted CB32, it reasonably believed that the much larger parcel depicted on the zoning map without any internal lot lines was capable of being reasonably developed under the TOD zoning regulations.

Because of the much smaller size and irregular shape of the subject properties, they are not in fact capable of being developed for reasonable uses under the TOD zoning regulations. Had the County Council been aware of the extremely small size and irregular shape of Parcel 703 and Parcel 726, the Council would have elected to place both parcels in the R-12 District consistent with the zoning of the directly adjacent properties on the south side of Dorsey Road, and also consistent with other nearby R-12 zoned properties located on the north side of Dorsey Road only 700 feet away and east of the subject properties. See attached **Exhibit B** containing copies of the Official Zoning Map (Sheet 43) for the last 4 comprehensive rezonings. These maps reveal that in 1985 and 1993, the area containing the subject properties was depicted as four (4) separate and distinct parcels. During the 1985 and 1993 Comprehensive Zonings, the County Council placed the subject properties in the M-2 (Manufacturing Heavy) District. Beginning with the 2004 Comprehensive Zoning, the area containing the subject properties was mistakenly depicted on the zoning map as a single larger parcel without internal lot lines. In 2004, relying on this zoning map mistake, the County Council elected to zone this area TOD. This mistake on the 2004 Comprehensive Zoning map was carried over to the 2013

Comprehensive Zoning. As a result, still relying on this mistake on the zoning map, the County Council again in 2013 elected to place the area containing the subject properties in the TOD District. Had the county council been aware of the actual size of the properties, they would have realized that they were not large enough to be developed as viable TOD zoned properties given the lack of adequate space for non-residential parking and storm water management.

The second basis of zoning mistake resulting in the County Council's decision to apply the TOD District to the subject properties relates to a change in the underlying assumptions relied on by the Council during the 2013 Comprehensive Zoning. During the last Comprehensive Zoning, the Council assumed that there was a market for TOD development where the subject properties are located, or that such a market would develop in the reasonable future. This assumption has; however, proven to be a mistake because, with the passage of time, the market for TOD zoned properties in the particular location of the subject properties has failed to materialize. As stated above, the subject properties were initially zoned TOD during the 2004 Comprehensive Zoning. Beginning in 2004 and continuing through the date of this Petition, both the Petitioner and the owner of Parcel 726 have aggressively marketed their respective properties for sale. Despite numerous ongoing efforts to sell the properties (including numerous listings on a multiple list service and the engagement of a professional auctioneer) neither parcel has received a single purchase offer. In fact, the property taxes on Parcel 726 have been in considerable arrears for many years; and as a result, this parcel has been offered at tax sale for the last seven (7) years. Despite this no purchaser has ever shown an interest in the property by purchasing the tax lien certificate. During this time, both the Petitioner and the owner of Parcel 726 have been licensed real estate agents in the State of Maryland. It is their shared opinion as local real estate agents and owners of these properties that a viable market for the small, irregular shaped TOD zoned parcels simply does not exist at this location. Therefore, with the passage of time, the Council's assumption that a market for TOD parcels at this location either existed or would develop within a reasonable time has proven to be a mistake. In light of this, the appropriate zoning for these properties is R-12, consistent with other properties in the neighborhood.

Attached as Exhibit C are copies of various Multiple List Service listings for sale and notice of an auction for the sale of the subject properties over a time period in excess of 20 years. Also attached are copies of property tax statements for Parcel 726 showing that the property tax assessments for this property are more than \$70,000 in arrears. Together, these documents provide compelling evidence that a market for smaller sized TOD zoned parcels at this location on Dorsey Road does not exist. As such, with the passage of time, it is now clear that the decision to apply the TOD District to the subject properties was a mistake; and the most appropriate zoning for the subject properties is R-12.

The Petitioner does not allege that there has been a substantial change in the character of the neighborhood.

The Petitioner is not able to use the subject properties in their present zoning classification because, as stated above, a viable market for small, irregularly shaped TOD zoned parcels in this particular location simply does not exist. The primary reason for the inability to use the properties under TOD relates to the limited nature of the permitted uses under the TOD District. For example, the TOD District only permits apartment or single family attached

dwellings within a development project encompassing at least 3 gross acres of TOD-zoned land with a minimum residential density of 20 units per net acre of residential development. See, §127.4.B.7 & 8; §127.4.E.1; and §127.4.F.2.a. Under these regulations, the subject properties are far too small to accommodate residential development. With respect to the non-residential uses permitted in the TOD District under §127.4.D, these uses are likewise not viable on the subject properties because the parcels are simply too small to accommodate the required parking areas associated with non-residential development. A minimum of 3.3 parking spaces per 1,000 sq. ft. of development would be required to accommodate the parking needs for most uses. The subject properties are simply too small to accommodate the parking requirements of a viable development in the TOD District.

The proposed use of the property is for residential (single-family detached) which is very much in keeping with the character of the surrounding neighborhood and therefore will not result in adverse impact on the surrounding and vicinal properties. Additionally, the subject properties are both within the metropolitan district and are currently available to be served by public water, sewage, and public roads.

The character of the neighborhood where the subject properties are located is decidedly residential, consisting of single-family detached homes. The subject properties do not have internal access to the developed TOD zoned area adjacent to the Dorsey Marc Station. Rather, the subject properties have frontage on the north side of Dorsey Road where they directly face the established single family detached homes on the south side of Dorsey Road. The development of non-residential uses at this particular location on Dorsey Road would be very disruptive and out of character for the residential neighborhood. The development of commercial uses on the subject properties would further result in additional commercial traffic and vehicles including parking of large trucks not in keeping with the character of the neighborhood. See, Zoning Plan, Sheet 3 for the boundary of Neighborhood.

Approval of the requested zoning map amendment will not be detrimental to the public health, safety, and welfare because the properties have frontage and direct access on Dorsey Road at a location that will permit safe ingress and egress with adequate site distance. The parcels are proposed to be developed with single-family detached dwellings. The proposed use has a very low intensity and will not create any adverse impacts or nuisance conditions on adjacent properties. The proposed use will not create any atypical adverse conditions such as excessive levels of noise, dust, odors, fumes, or vibrations. Granting these rezoning requests will increase the supply of much needed housing in close proximity to mass transit; thereby serving the public health, safety, and welfare of the residents of Howard County.

The proposed zoning map amendment will be in harmony with the General Plan for Howard County and will not have the potential to adversely affect the surrounding and vicinal properties. Generally, the proposed zoning map amendments will further the HOCO By Design DN-3 Policy Statement by promoting homeownership in Howard County.

PUBLIC AUCTION SALE
2 PARCELS COMPRISING 0.40 +/- ACRE
IN ELKRIDGE

Sale To Be Held On The Premises

6875 DORSEY ROAD
HOWARD COUNTY, MD 21075

THURSDAY, MAY 11, 2006 AT 2:00 PM

Description: The Property comprises 2 Parcels totaling 0.40 +/- Acre. They are located in a TOD (Transit Oriented Development) District which allows a variety of commercial, office and residential uses. The property backs up to the Dorsey Business Center.

For more information call Paul Cooper at 410-828-4838

5% BUYER'S PREMIUM ADDED TO THE HAMMER PRICE

Terms of Sale: A deposit in the form of cash, cashier's check or certified check for \$10,000 is due at the time and place of sale. The difference to bring the deposit up to 10% is due by Tuesday May 16, 2006 in the auctioneer's office. Settlement is 45 days from the sale date. If payment of the balance of the purchase price or deposit is not paid within the specified period, the deposit will be forfeited and the property may be resold at the risk and expense of the defaulting purchaser. The Purchaser will pay interest on the unpaid portion of the purchase price from date of sale to date of settlement at the rate of 10% per annum. All expenses, including real estate taxes, and sanitary and/or metropolitan district charges, are to be adjusted to date of sale and assumed thereafter by the purchaser. Cost of all documentary stamps, settlement costs and transfer taxes to be paid by the purchaser. The property will be sold in "As is" condition without express or implied warranty as to the nature and description of the improvements. The property will be sold subject to easements, agreements, restrictions or covenants of record affecting the same, if any. Dimensions and acreage are more or less. Time is of the essence as to the terms of this contract.
