

REMINDER TO THOSE OBTAINING PERMITS FOR COLUMBIA ASSOCIATION ASSESSED PROPERTY

Will this project change the exterior of your property (e.g., an addition or deck)?

If this exterior construction or exterior alteration will take place on Columbia Association assessed property, it may also require approval from the Architectural Committee of the Village where the construction or exterior alteration will occur.

The Columbia Village Architectural Committee review and approval is a **completely separate process** from the issuance of Howard County permits and licenses.

Howard County has no involvement in the Columbia Village Architectural review process and vice versa. Issuance of a Howard County building permit does not eliminate the need to apply for approval from the Architectural Committee of the Village where this construction or exterior alteration will occur.

For details on how to apply for Columbia Village Architectural approval, please contact the Covenant Advisor for the Village where the property is located:
