County partners. Some of the Office of Transportation’s partners in active transportation include:

1. **Age-Friendly Howard County** is a three- to five-year plan for the County to join the AARP network of age-friendly states and communities through a focused effort to create a “livable” community which ensures that Howard County is a great place for all to grow up and grow older.

2. **Cycle2Health** is a non-competitive, peer-led, bicycling club for adults of all ages and riding abilities and is coordinated by the Health & Wellness Division of the County’s Office on Aging and Independence (OAI).

3. **Go Howard** provides information on ridesharing, transit, biking, and other alternatives to driving by yourself in Howard County. Formerly known as Howard Commuter Solutions, Go Howard explains the area's Transportation Demand Management (TDM) program.

4. **Howard County Police Department** (HCPD) watches over our roads to ensure the safety of all our users of transportation systems. It also includes the Pathway Patrol Unit which focuses on the safety and enforcement of the County’s 190+ miles of pathways and trails via mountain bikes and electric motorcycles.

5. **Howard County Recreation and Parks** oversees all regional, community, and neighborhood parks, as well as scenic trails, facilities, and programs.

6. **Live Green Howard** is an initiative that brings together agencies and resources in Howard County that are dedicated to encouraging sustainability, protecting the environment, and being “green.” One of the areas of focus is transportation, which includes bicycling and walking.
