N95/KN95 Masks

What to Know About Your Mask

- It is highly effective if worn properly.
- There must be a tight seal between the mask and skin for best protection.
- After repeated uses, it loses its shape and may not fit as tightly.
- May cause some difficulty breathing, shortness of breath, fatigue, and dizziness. (Discontinue use if you experience any of these symptoms.)

How to Wear Your Mask

**KN95**

Place your fingertips from both hands at the top of the metal nose clip. Slide fingertips down both sides of metal strip to mold nose area to shape of your nose.

Do NOT allow facial hair, jewelry, glasses or anything else to prevent proper placement or come between your face and mask.

Do NOT use a mask that appears damaged, becomes wet or visibly dirty.

**N95**

Using one hand, place the mask on your face. Pull the top strap over your head, resting it high on the back of your head. Pull the bottom strap over your head, around the neck just below the ears. Use both hands to mold the metal nosepiece to the shape of your nose.

Do not allow facial hair, jewelry, glasses or clothing interfere with the tight seal around your face.

Do not wear the mask if it is wet, dirty, damaged or loose on your face.
