What is the HOWARD COUNTY HUB & SPOKE PROGRAM?

The Howard County Hub and Spoke program is designed to support buprenorphine waived prescribers with serving individuals with an opioid use disorder (OUD). The program will also assist with the rapid and smooth transfer of patient care between Hubs (SUD Treatment Program) and Spokes (Community-Based Prescriber).

The Hub and Spoke Care Coordinator will provide support to physicians and local providers with the referral process. We assist providers with accessing wrap around services that will improve the level of care provided to their patients. We will assist providers with:

» Assistance with case management.
» Assistance with referrals to other appropriate clinical treatment services.
» We will assist providers with transitioning patients back to your practice once treatment is complete.

Hub and Spoke can also offer patients access to other important recovery services such as:

» Insurance.
» Peer support services.
» Housing.
» Transportation to medical appointments.
