

Necessary Disturbance Requests Summary Report

Necessary Disturbance Action Date Between 1/1/2022 and 1/31/2022

File Number	File Name	Date Submitted	Developer	Owner	Location Description	Action	Action Date
F-21-033	MARRIOTTSVILLE ROAD WIDENING	9/16/2021	MANGIONE ENTERPRISES OF TURF VALLEY, LP	HOWARD COUNTY DPW	MARRIOTTSVILLE RD BETWEEN I-70 & RT 40	Approve	1/28/2022

Description: Request for approval for essential or necessary disturbance for a road widening and culvert replacement on Marriottsville Road north of Route 40 (from station 230+82 to 251+00 per F-21-033) that will impact a floodplain, stream, wetlands, and their buffers to fulfill an Adequate Public Facilities Ordinance (APFO) road mitigation requirement. The disturbances are the minimum necessary to address the APFO road mitigation requirements and to upgrade the existing culvert to properly convey the 100-year storm. The proposed improvements were previously part of the Capital Improvement Project for Marriottsville Road (CIP #J-4205), and the project is the final connection between the improvements to the Route 40/Marriottsville Road intersection (CIP# J-4215) and the Marriottsville Road/I-70 bridge replacement (CIP# J-4205). Due to the existing Marriottsville Road alignment and the connections to the intersection improvements to be the Route 40/Marriottsville Road intersection and the I-70/Marriottsville bridge and intersection, there are no alternatives to the provided impacts.

Mitigation Requirement: Any areas of vegetation not permanently improved with the road widening and culvert shall be revegetated as required through the MDE permit to meet best practices for ecological restoration and water quality enhancement. Reason For Denial:
