

Welcome

Welcome to the Active Transportation Open House 2022!

The Open House is open until February 18 at 4pm and includes opportunities to learn and talk about projects and initiatives in the County related to walking, bicycling, Complete Streets, and shared electric scooters in Howard County.

This Open House builds upon the momentum of our previous Active Transportation and *BikeHoward* open houses and reflects the County's goals and priorities to make pedestrian and bicycle travel in Howard County available, accessible, and comfortable for everyone. As we know, active transportation is good for us individually, our community, the economy, and the environment. The County is committed to improving active transportation for everyone in our community.

Platforms and discussions. This year's Open House is virtual, however, we look forward to seeing you at one or more of the 3 focus topic discussions this week held on the video conferencing platform, Webex. Links to the discussions are posted on the Open House homepage.

Questions and comments. Please ask us your questions and provide us with your feedback this week at the discussions, through online surveys, or by emailing the Office of Transportation at transportation@howardcountymd.gov. Thank you for visiting us today!
