

# Adopt a Hydrant

In the winter, fire hydrants often become covered by snowfall and/or plowing operations. In an emergency, every second counts. When a hydrant is blocked, hidden, or hard to find due to snow and ice, it slows down the fire department's response. That's why we need YOUR help.

## How to Participate

1

Submit an application to adopt a hydrant in your neighborhood using the link or QR code below.

2

When it snows, clear a three-foot area around the hydrant as well as a small pathway from the hydrant to the road.

3

Keep an eye on your hydrant during the year and report issues to the DPW via Tell HoCo or at 410-313-4900.
