Date: 4/27/2012

To: Design Professionals

From: Donald L. Muck, P.E., Chief of Plan Review Division

Subject: May 1, 2012 Interior Alterations Can Be Submitted Online

Howard County will start processing commercial ‘interior alterations’ online through Accela Citizen Access (ACA) and ProjectDox beginning May 1, 2012. Please see the Howard County Department of Inspections, Licenses, and Permits website for more information at:

www.hcedilp.org

This new technology will allow designers to submit drawings from their office for review. In order to be able to attach documents online, a login and password must be obtained. Please contact the Licenses and Permits Division at 410-313-2455 to obtain the information needed to setup your access login. In accordance with Maryland State law, one copy of the drawings will be required to be signed, sealed and submitted to this office upon completion of the final review. This copy will be returned to the contractor at the time of issuance and will be used as the ‘field’ set for inspections to use.

The first step in the process will be submitting an application online through Accela Citizen Access. Again, a login and password must be obtained in order to perform this function. Once your application is received, a case will be set up in ProjectDox and then you will be invited into the project through email. After receiving this invitation, drawings may be uploaded along with the appropriate affidavits from all the designers as well as the water and sewer information sheet. Once all the required documents and proper plan submittals are received, the review process will begin. Communication will occur as usual via phone, email or letter. When the drawings are able to be approved, Howard County will affix a stamp on the drawings and then the approved drawings will be moved to the approved drawing folder. The designer shall print one copy of the plans and submit it to our office with the original seals and signatures on all pages.

The Department of Inspections, Licenses and Permits is excited to provide you with this opportunity to utilize this latest technology and hopefully provide an easier way of submitting building permit applications. Any feedback to this process will be greatly appreciated along the way so that it can be made more efficient for you and our staff. If you have any questions, please contact me at 410-313-3948.
Design Professional information for Electronic Plan Submittal

I. Applicant will submit application on-line through Accela Citizen Access (ACA). They must provide the following information: name and contact information for the design professional and a water and sewer information sheet.

II. The Plan Review Division will set up a case in ProjectDox and contact the Design Professional by email inviting the designer to start downloading documents for our review.

III. The Design Professional will need to inform us when they are finished uploading documents. The documents shall include a signed affidavit (which is available on our website) from all Design Professionals who will be signing and sealing the drawings for this project.

IV. Drawings shall be uploaded to the drawings folder and the affidavits shall be uploaded to the documents folder. All drawings shall have individual labels i.e.: (A101 First floor Plan, A103 Reflected ceiling plan)

V. The Design Professional shall keep a space on all sheets in the lower right 3 inches from the bottom. This space shall be 3 inches wide and 3 inches tall. This space shall remain blank so that we can affix our approval stamp in this area.

VI. When it is determined that the design professional owes a revision fee because they exceeded the maximum allowed submittals plan review will assess and invoice the revision fee. No other fees can be invoiced until the drawings are approved. The applicant can then go online to ACA and pay the revision fee. Review of the revised drawings will not be accepted and reviewed until the revision fee is paid.

VII. When all revisions have been submitted and reviewed, the drawings can be approved. Each Plans Examiner will affix an approval stamp to the drawings for which they are responsible for the review. All pages must have an approval stamp. The drawings will appear in the approved folder and this is the folder that the designer will print the copy to be submitted.

VIII. When the Design Professional sees all copies of the approved drawings have been uploaded to the approved drawings folder they can print one copy of the approved drawings and the required original seal and signature must be on each page of the drawings when they are submitted at our front counter. The Plans Examiner will place the plans on hold until a signed and sealed copy is submitted.

IX. As long as you are registered user in ACA you can also pay your permit fees online once the fees have been invoiced.
Design Professional Affidavit for Electronic Plan Submittal

I, (Name) __________________ am a licensed (Architect, Engineer, or Interior Designer) in the State of Maryland, license number (License #) ______________ which is current and expires on (Expiration Date) ____. INFORMATION SHEET
FOR WATER AND/OR SEWER CONNECTION
(To Be Completed By The Applicant)

The following information is requested so that your application can be processed:

1. Owner's Name ______________________ Phone #: __________.

2. Owner's Address ______________________
   City __________________ State __________ Zip Code ________.

3. Address of property (where connection is requested):
   Street Name ______________________
   City __________________ State __________ Zip Code ________.

4. Subdivision Name ______________________ Parcel/Lot No. ________.

5. Tax Map No. ________ Block/Grid ________ Parcel No. ________.

6. Plan:
   a. Attach copy of SDP if available. SDP # __________.
   b. Attach plan or sketch showing the water and sewer and appurtenances
      requested if no site development plan exists or if not required.

7. ZONING DISTRICT: ________________.

ANY STRUCTURE BEING RENOVATED, (IF THE OCCUPANT(S) ARE BEING CHANGED OR ANY
INTERIOR ALTERATIONS OF ANY KIND) THE FOLLOWING INFORMATION IS MANDATORY:

1. Current, Existing or Previous tenant's name: ______________________.

2. Previous tenant's suite, bay or space number: ______________________.

3. Previous tenant's number of employees: ______________________.

4. Current, Existing or Previous Use (i.e. type of business): ______________________.
5. New occupant's name: ____________________________________________

6. New occupant's suite, bay or space number: ________________________

7. New occupant's number of employees (for interior alterations): ____

8. New occupant's intended use (i.e. type of business): ________________

9. Type of work to be completed with this permit: ______________________

ADDITIONAL INFORMATION REQUIRED FOR COMMERCIAL AND INDUSTRIAL CONNECTIONS AND BUILDINGS:

1. WAREHOUSE: ______________________ Total sq. ft.

2. INDUSTRIAL (Type): ______________________ Total sq. ft. ______

3. COMMERCIAL: ______________________ Total sq. ft.
