AGENDA

1. Approval of the December 5, 2017 Minutes

2. Announcements
   i. US 29 Pedestrian Bridge
   ii. New Transit Buses
   iii. Deborah Myers
   iv. Transit Development Plan Public Hearing
   v. MagLev

3. Public Comment

4. Old Business
   i. Transit Development Plan
   ii. Regional Transportation Agency
   iii. Office of Transportation Advisory Groups – update from MTB member liaisons
   iv. US 1 Safety Evaluation
   v. Maryland Department of Transportation Attainment Report

5. New Business
   i. FY 2019 Priority Letter
   ii. Walk Howard, Pedestrian Plan

6. Adjournment

Future MTB Meetings Dates
February 27, 2018 State Transportation Planning
March 27, 2018
Members Present: Ron Hartman, Chair  
                    Astamay Curtis  
                    Brian Dillard  
                    Larry Schoen  
                    Rick Wilson  

Members Excused: Jason Quan  
                    Debbie Meyers  
                    Alive Giles  
                    David Zinner  

Staff: Clive Graham, Executive Secretary  
       John Ainsley, Recording Secretary  

1. **Approval of the October 24, 2017 Work Session Minutes** (minute 01)
   
   Astamay Curtis moved to approve the minutes of the October 24, 2017 meeting and Rick Wilson seconded the motion. The minutes were approved by a vote of 5-0.

2. **Announcements** (minute 01)
   
   Clive Graham, the Administrator Office of Transportation (OoT), announced that the Office of Transportation has been awarded two MD Bikeways Grants from the Maryland Department of Transportation.

3. **Public Comments** (minute 02)
   
   There was no public comment.

4. **Old Business** (minute 02)

   i. **Transit Development Plan** (minute 03)
   
   Clive presented highlights of the Draft Final Transit Development Plan to the MTB. The TDP presentation included the following major topic areas:

   - Current performance of fixed routes
   - Reconfiguration of bus route system
   - Short Term goals- Phase I (next 18 months) major reconfiguration of current routes
   - Long Term Goals- Phase II (three plus year vision), includes additional expansion routes
   - Mobility Service- addressing the high costs of paratransit service/ future increased demand

---

1 Minute references are to the meeting audio recording; see link on the Multimodal Transportation Board webpage.
The MTB was in general support of the TDP and would like to forward a resolution of support letter to the County Council. Clive advised that the resolution would have to be drafted by next week so it would be available for the Council Public Hearing on January 16, 2018. It was also suggested that MTB members attend the hearing to show their support of the plan.

ii. Regional Transportation Agency/Commission (Update) (minute 69)

Clive gave the following updates:

- All four partners have signed the Memorandum of Understanding regarding the (Regional Transportation Agency) RTA and the establishment of the RTA Commission
- The RTA Commission Board was official seated today on December 5, 2017
- The Board voted and adopted the Bylaws and elected officers

Clive introduced Cristin Tolen, the new RTA General Manager. Cristin has past experience working for the Maryland Department of Transportation and was involved in past efforts to form a regional transportation entity in Central Maryland. Cristin said she was looking forward to the challenges in her new role.

iii. Office of Transportation Advisory Groups- update from MTB member liaisons (minute 72)

Due to time constraints, this item will be taken up at a future MTB meeting.

iv. US 1 Safety Evaluation (time permitting) (minute 72)

Due to time constraints, this item will be taken up at a future MTB meeting.

v. Connecting Howard County Status (time permitting) (minute 72)

Due to time constraints, this item will be taken up at a future MTB meeting.

5. New Business (minute 73)

Maryland Department of Transportation Attainment Report (minute 73)

Ron Hartman suggested that the MTB should spend some time on the Report at a future meeting. Ron requested the members to review the full report, and bring relevant topics back for discussion. It was also suggested a speaker from MDOT might be invited to a future meeting. See attached link; http://www.mdot.maryland.gov/newMDOT/Planning/CTP/CTP_17_22/Documents/2017_ATR_01_12_17.pdf
6. **Adjournment** (minute 75)

Ron adjourned the meeting at 8:23 pm. The next MTB meeting is scheduled for **January 23, 2018 at 7:00 pm.**

April 12, 2017

The Honorable Pete Rahn
Office of the Secretary
Maryland Department of Transportation
7201 Corporate Center Drive
Hanover, MD 21076

Re: FY 2018 Howard County Priority Letter

Dear Secretary Rahn:

Please accept the following "Priority Letter" from Howard County. The letter includes a list of transportation projects Howard County is recommending be included and funded by the Maryland Department of Transportation’s (MDOT) FY 2018-2023 Consolidated Transportation Program and also includes requests for technical and policy support. The projects requested for funding are listed in priority order, are "Major Capital Projects" as defined by MDOT guidance, and are consistent with the Maryland Transportation Plan.

Thank You and Acknowledgments

Before listing our requests, please accept our thanks and appreciation for prior and ongoing State funding for the following projects:

- Widening of US 29 from Seneca Drive to MD 175

MD 32 Corridor Improvements

- Phase 1: Dualization of MD 32 from MD 108 to Linden Church Road
- Phase 2: Linden Church Road to I-70, including MD 32/MD 144 intersection improvements
- Phase 3: Evaluation of the widening MD 32 north of I-70 to the Carroll County line

- Design and construction improvements at the US 1 and KitKat Road intersection
- US 29: Bus Rapid Transit (BRT). Planning for enhanced express bus service to Silver Spring along the US 29 BRT corridor

We also wish to thank you for the valued technical assistance provided by MDOT staff, especially the extensive assistance from the Maryland Transit Administration and the State Highway Administration on the following projects:

- US 40 at Rogers Avenue intersection
- I-95 Noise Walls in Elkridge
- US 1 at Montevideo Road Intersection
- Blandair Park Interchange on MD 175
Requests for Funding

The following recommendations are the result of review and input by County staff from several departments and offices, as well as by elected and appointed officials. Input also included an extensive public involvement process, including a public survey with over 1,400 responses, and over 300 unique written comments and a public meeting held on February 21, 2017. The results of the survey and public meeting materials can be found at: https://www.howardcountymd.gov/Departments/County-Administration/Transportation/2018-Priority-Letter

Capital & Construction Projects

1. US 29 from the Middle Patuxent River to Seneca Drive, widening including access improvements to the Rivers Edge Community, and accommodations for BRT.

2. Transit Capital Improvements:
   • Purchase rolling stock (buses) to replace vehicles that have exhausted their useful life to maintain a fleet with a state of good repair and to expand service on a number of the most traveled fixed routes
   • Rolling stock, road and signal improvements and development of high quality BRT stations in Downtown Columbia and future stations for the US 29 BRT system

3. US 1 Sidewalk: Construct sidewalk along US 1 southbound in the median between North Laurel Road and the Prince George's County line

4. MD 108: Construct intersection improvements along MD 108 at Ten Mills Road

5. MD 100 and MD 103: Replacement of the existing interchange

Design & Engineering Projects

1. I-70 Corridor
   • I-70: US 25 to US 40; widen one lane in each direction
   • Upgrade/reconstruct the I-70/Marriottsville Road interchange
   • Design and implement I-70/US 29 interchange capacity enhancements

MD 175 Corridor

2. MD 175: Evaluate the improvement of existing access points into Columbia Gateway Drive, including a third access point through the potential extension of MD 108 across MD 175 into Columbia Gateway Drive and direct access to Columbia Gateway Drive from I-95

3. MD 175: US 1 to Snowden River Parkway; continued comprehensive traffic modeling leading to design alternatives including the US 1/MD 175 and US I/I-95 interchanges
4. Pedestrian, Bicycle, and ADA Access and Safety Improvements: Design and construct sidewalks, pedestrian safety improvements, bicycle safety improvements and final design and construction of the short term network projects in Howard County's Bicycle Master Plan and Pedestrian Master Plans. Specifically, we will be requesting state grant funding for the following projects:
   - Conduct planning for pedestrian and bicycle access into the Columbia Gateway area
   - Finalize design of the Downtown Columbia to Stevens Forest Road connector
   - Finalize design of pedestrian and bicycle improvements along Dobbin and McGaw Roads
   - Finalize design of the North Laurel Connections project to join Savage and Laurel in a connected bicycle and pedestrian network

5. MD 108: Guilford Road to Trotter Road; design and construct pedestrian, bicycle, automobile, and streetscape improvements

6. MD 175: US 1 to Dorsey Run Road; widening and reconstruction including final design and construction of the US 1/MD 175 interchange

7. MD 103 at US 29: Addition of a third lane along MD 103 onto the ramp towards US 29 northbound

8. Traffic Signal Back-up Generators: Evaluate and plan a system for developing a back-up generator installation program at key state highway traffic signals within Howard County

9. Noise Walls: Evaluate, design, and construct noise walls at Dumfart Road, at the southwest corner of I-95 and the MD 216 interchange

Requests for Technical Assistance and Support

We would like to request MDOT's cooperation and technical support and assistance for several important county led projects and initiatives on state roads and highways. These projects reflect the county's desire to advance projects in coordination with the state to ensure timely and effective project delivery. These projects are:

- Investigating safety and congestion issues on the MD 99 corridor between Marriottsville Road and US 29/MD 99 intersection

US 1 Corridor

- US 1: Development of a safety audit for US 1

  We want to draw your attention again to the spike in the number of pedestrians killed by cars in the US 1 corridor during 2016. Six people—a higher annual number than ever before—were hit and killed by cars in this rapidly growing, evolving and economically important area. We strongly urge you to support and enhance efforts and initiatives to put safety first for the State's and the County's vulnerable road users and the development of safe infrastructure for all.

- US 1; MD 175 to just north of Montevideo Road; phased arterial highway reconstruction including pedestrian, transit and streetscape improvements
US 1: Construct intersection improvements along US 1 at MD 103 (Meadowridge Road), and Whiskey Bottom Road

Widening of the Marriottsville Road Bridge over I-70 to enable future widening of Marriottsville Road north to MD 99 and south to US 40

Study of a potential transitway that would connect Downtown Columbia; Oakland Mills, and Columbia Gateway Office Park, including a possible transit bridge over US 29

Construction of safety and aesthetic improvements to the existing pedestrian-bicycle bridge over US 29 between Downtown Columbia and Oakland Mills

North South Connector/Jug Handle: a major collector planned to connect the US 29/Broken Land Parkway interchange to Little Patuxent Parkway, including a spur off the existing northbound US 29 off-ramp pursuant to the Downtown Columbia Plan

MD 108: Construct intersection improvements along MD 108 at Centennial Lane

Designating Downtown Columbia as a Transit Oriented Development

Other State Initiatives

1. The County urges the state to fully fund and implement MDOT’s MARC Growth and Investment Plan improvements on the Camden Line, including track improvements, rolling stock and additional service.

2. The County fully supports the SHA’s I-95 Active Traffic Management project. We urge the MDOT to continue to advance it.

Both of these projects are needed to ensure safe and efficient travel throughout the region and Howard County.

Thank you for considering Howard County’s priority transportation needs.

Sincerely,

[Signature]

Allan H. Kittleman
County Executive
Thank you for your positive endorsement of Howard County's state transportation projects and priorities.

File: CTP Priority Letter FY 2018- FY 2023
These are preliminary initial alternatives which are symbolic only and do not reflect precise locations or the width of an SCMAGLEV route. Alternatives following the same route are represented with parallel lines to prevent one of the colors from disappearing; for example, the red and yellow lines between Odenton and BWI Marshall Airport follow the same route. The width of the colored lines does not represent the width of the SCMAGLEV system, or potential construction or property acquisition.
Project Information:

The Baltimore Washington Super Conducting Maglev Project proposes to construct a new highspeed rail line between Washington DC and Baltimore, with a stop at BWI airport, using a super conducting magnetic system train to allow travel speeds of up to 311 MPH for a 20 minute end to end travel time. The project is part of the northeast maglev group; who are working to develop a system that will connect Washington DC, Baltimore, Philadelphia and New York with a one hour travel time.

The total project cost for the DC to Baltimore route is estimated at $10 Billion. This estimate is based on figures provided by the sponsor, however, costs could increase greatly since a significant portion of the project will involve tunneling and elevated structures.

The Japan Bank for International Cooperation has committed to a $5 Billion loan; therefore, the project sponsors would have to secure the balance of the funding for the project. The $10 billion cost does not appear to include the cost to operate the system.

Howard County Impact:

Howard County submitted scoping comments based on the project area, requesting the project assess short and long term impacts on existing and planned passenger rail transportation, local and regional bus transit, and bicycle/pedestrian transportation.

Scoping comments also recommended that the study include a “build alternative that includes significantly-improved train service along the current tracks between Baltimore and Washington, D.C. This alternative could include improvements such as the construction of a third track on all or portions of the current alignment. In this way, the study will be able to determine not only the increase in demand between no-build and MAGLEV, but also the increase in demand between significantly-improved conventional rail and MAGLEV— as well as the concomitant difference in cost.”

For more information, please see the project website:

Howard County Transportation Priorities
Priority Letter and Project Scoring

Maryland Department of Transportation Consolidated Transportation Plan
Fiscal Years 2019 - 2024

Howard County Multimodal Transportation Board

January 23, 2018
Agenda and Purpose

- Purpose of the meeting
- What is the priority letter and chapter 30 scoring
- What we did last year
- Important changes
- Public input process and schedule
What Role Does The Priority Letter Play

- Priority letters represent each County’s internal ranking of transportation priorities
- Priority letters involve requests for a wide variety of projects, such as transit improvements, highway reconstruction, highway capacity projects
- Multi-modal submissions enable local governments to have a greater impact on all State transportation investment decisions
What Goals Do Projects Need To Meet

Support Goals of State Transportation Plan

- Safety & Security
- System Preservation
- Quality of Service
- Environmental Stewardship
- Community Vitality
- Economic Prosperity
Last Year’s Letter
What’s New

• Updated scoring method
• Establishes 9 goals and 23 measures in the law that each major transportation project shall be evaluated against in the project-based scoring model.
• Scoring method mostly technical, not qualitative
• Is not prescriptive for MDOT
• Maximum of 10 projects for each county
• A subset of projects in the priority letter
• Must have completed planning process with selected alternates
Priority Letter and Scoring

**Priority Letter Process**
- Utilized by MDOT to consider system preservation, safety and all highway/transit capacity or enhancement projects under $5 million, TOD designations, local transit or aviation projects, etc.
- Priority Letters shall still include Major Transportation project priorities but they will not be evaluated and considered for funding if they do not have a Chapter 30 Application submitted by March 1st.
- Does Not Require an Application or Any Project Data

**Chapter 30 Scoring**
- Only Applies to Major Transportation Projects over $5 Million
- Requires Separate Application Process for Funding Consideration
- Requires Project, Cost & Local Impact Information
What Projects Require Scoring

Only Major Transportation Projects required to go through Chapter 30 Scoring Model

- Highway Capacity Projects Over $5M
- Transit Capacity Projects Over $5M

Projects That Do Not Go Through the Chapter 30 Scoring Model are

- System Preservation Projects
- Safety Projects
- Non-Highway/Transit Capacity Projects
- All Capacity Projects Under $5M
Public Input Opportunities

- Public Meeting on January 24 at 7 PM
- Office of Transportation Website
- Survey
Responses to Public Input Survey By Zipcodes
