Planning Board Criteria:

This SDP is in compliance with the five criteria requirements of Section 127.0.F.2 of the Howard County Zoning Regulations for Planning Board approval of a site development plan as follows:

1. Is consistent with the approved Preliminary Development Plan (PDP), Comprehensive Sketch Plan (CSP) and Development Criteria.

   Site design is consistent with the approved Preliminary Development Plan, Comprehensive Sketch Plan, and Development Criteria approved for this project. The SDP is consistent with the purpose and design concept for a “Traditional Neighborhood Design” (TND) development since the front of the building will be aligned and close to Maple Lawn Boulevard, with opportunities for retail, restaurant, and/or personal service uses at the ground floor.

2. Satisfies the applicable requirements of Section 127.0.E.3. (Decision by the Planning Board for the CSP and Development Criteria).

   This SDP satisfies the requirements of Section 127.0.E.3 of the Zoning Regulations which describes the Planning Board’s approval decision of the Comprehensive Sketch Plan and the Development Criteria. The Planning Board approved the amended Comprehensive Sketch Plan and Development Criteria under PB Case No. 378 by a Decision and Order dated January 25, 2007.

3. Makes effective use of landscaping to provide buffers where needed and to enhance the site design.

   The developer proposes to meet or exceed the landscaping requirements of the approved Preliminary Development Plan, Comprehensive Sketch Plan, the Howard County Landscape Manual and the Maple Lawn Landscape Design Criteria. Therefore, the design of the site will be enhanced.

4. Provides squares, plazas or other useable landscaped areas within apartment developments, office developments or focal points.

   The SDP provides a mix of landscape plantings and other site amenities; including on-site parking, lighting, street trees, open air paved patios (on each side of the building), lawn area, planters, and a bicycle rack will be provided.
5. Implements the pedestrian circulation system for the MXD Use Development.
