Analysis:

Site Improvements – A row of five single family attached townhomes is proposed on Lots 31 through 35 and one single family detached dwelling on Lot 36. Utilities and landscaping will be provided.

Setbacks – The development complies with the setbacks established in the 3rd amended Turf Valley Multi-Use Sub-District Final Development Plan.

Storm Water Management (SWM) - Storm water management has been provided under F-17-101.

Landscaping - Landscaping complies with the Howard County Landscape Manual and Design Criteria. Perimeter landscaping is provided along the public street and property boundaries.

Forest Conservation – The project is exempt from the Howard County Forest Conservation Requirements per Section 16.1202(b)(1)(iv) of the Howard County Code.

Adequate Public Facilities – This plan complies with the requirements established by the Howard County Adequate Public Facilities Ordinance.

Development Criteria – This plan complies with the 3rd amended Turf Valley Multi-Use Sub-District Final Development Plan requirements.

Planning Board Criteria:

1. The plan is consistent with the Howard County General Plan:

The Plan complies with criteria established in the 3rd Amendment to the Turf Valley Final Development Plan requirements and the Howard County Zoning Regulations for the PGCC Zoning District. Since the Zoning Regulations are based on the Howard County General Plan and the SDP complies with all applicable regulations, the SDP is consistent with the General Plan.

2. The plan results in an appropriate arrangement of land uses within the district:

The plan is in Development Area 'L' as depicted in the 3rd Amendment to the Turf Valley Final Development Plan. The area is projected for "All permitted uses in the PGCC Multi-Use Sub-District", which includes single-family detached and single-family attached dwelling units. The land use proposed by this SDP is consistent with the land use arrangement defined in the FDP.

3. The plan ensures that the existing dwelling units will be buffered from the proposed development:

Existing dwellings in the Oakmont Village at Turf Valley will be buffered from the proposed development by existing vegetation, proposed vegetation, and the existing golf course.

4. The roads serving the PGCC District will be adequate, as determined by the capacity and mitigation standards of the Adequate Public Facilities Ordinance:

The development is served by Resort Road and Mount Villa Parkway, which enables connections from the development to Turf Valley Road, Marriottsville Road, Baltimore National Pike, and I-70. A traffic study for the development was approved under S-08-001 and S-11-003 "Caperton Village at Turf Valley," which was formerly referred to as "Turf Valley Clubhouse".

5. Necessary water and sewer facilities are available to serve the proposed development:

Public water and sewer service will be provided under Contract #14-4977-D.

SRC Action:

The SRC determined the subdivision plan can be approved, subject to addressing remaining comments that must be corrected prior to DPZ signature approval.

Recommendation:

The Department of Planning and Zoning recommends approval of Preliminary Equivalent Sketch Plan (SDP-19-012), subject to complying with SRC comments and any Planning Board conditions.
