5. **Presentation by Invited Guests**

   a. None.

6. **Old Business**

   a. **Subcommittee on Equity and Racial Justice:** Mr. Branch stated that the Subcommittee met with Howard County Councilmembers Mr. Opel Jones (D-District 2) and Ms. Christiana Rigby (D-District 3).
The councilmembers discussed with the Subcommittee their reasons for creating a Racial Equity Task Force in Howard County. The Subcommittee plans to work with the Task Force and to follow-up with the Councilmembers.

Mr. Branch stated the Subcommittee is planning to send a survey to veterans to capture their thoughts on equity in the County.

Ms. Kesler and Mr. Rivers suggested that there may be fatigue or reluctance in the community to participate in the survey.

Mr. Jolissaint suggested that the Subcommittee use a phased approach to contacting veterans. It should consider holding focus groups as is practical during the pandemic and should also consider sending anonymous surveys.

Ms. Terry said that she would continue to forward information on racial equity in the County to the Subcommittee.

Ms. Kesler said that the Office of Human Rights is looking at equity from a veteran’s perspective. She said that the Office might be willing to help the Subcommittee.

Mr. Avery said that he has contacts with military officers at Fort Meade, and they may be interested in participating in the survey if it’s done anonymously.

b. **Exploratory Committee to Investigate the Feasibility of Building a Veterans Home in Howard County**: Mr. Blum will continue to try to schedule a meeting with the County Executive. He said that he did speak briefly with him at Colonel Schott’s birthday celebration.

Mr. Jolissaint noted that there is a need in Howard County for a veteran’s home. It may take someone willing to donate property, though, to get one.

c. **Veterans Support Group**: Mr. Rivers stated that, due to the pandemic, NAMI is not conducting any in-person counseling. So, the Support Group will only do a meet-n-greet to start. The first session will be held on 5 October at 1730 hrs. It will meet at Centennial Park, Pavilion “O,” off Centennial Lane near the back of the parking lot.

Mr. Rivers said that NAMI might also have issues with privacy while meeting at the pavilion.

Mr. Jolissaint asked if it would help to have commissioners attend the session. Mr. Rivers said that it would help, and any Commissioner is welcomed to attend. Mr. Jolissaint called on the commissioners to think about attending.
d. **VAMHCS Meeting:** Mr. Bolen summarized the Veterans Affairs Maryland Health Care System (VAMHCS) Veterans Service Organizations (VSO) and Congressional Stakeholders (CS) meeting held on 16 September 2020.³ (See Attachment B.)

Mr. Jolissaint emphasized veterans should get a flu shot this year. He also noted that most VA services are being conducted via telehealth and that, tragically, suicides in the U.S. Army are on the rise.

e. **Veterans Day Presentations in HoCo Schools:** Mr. Avery said that he contacted the Superintendent of the Howard County Public School System (HCPSS) and his staff regarding the Presentations Program. He said he received positive feedback, but there may not be enough time to implement the program this year. He plans to contact some schools to see if there is any interest.

Ms. Terry suggested that once we know more about the Veterans Day celebration plans, we might want to find out if the school system can ask students to watch the celebration.

f. **MHFA Proposal to the FMA Foundation Board:** No update.

g. **Virtual Veterans Connections thru Office of Aging and Independence (OAI):** Mr. Jolissaint and Ms. Terry stated that the first meeting will be held on 7 October. Ms. Terry said that the OAI plans to have art demonstrations, share stories, do trivia, etc. as part of the program.

f. **New Floating Launch for Non-Motorized Boats Improves Accessibility and Safety for Users of Seneca Landing Park at Riley’s Lock (Montgomery County):**

The original ramp was not ADA accessible, which presented numerous challenges for users with disabilities.
As part of the project, Montgomery Parks installed an accessible drop-off area and walkway, three accessible parking spaces, and a fully accessible picnic area with tables and grills.

The need for an accessible boat launch was initiated by Team River Runner, a nonprofit organization that provides adventure and adaptive paddle sports to veterans and their families. It approached the County Commission on Veterans Affairs about the need for an accessible launch and was assisted by the Commission on the project.

On Sundays from May to November, Team River Runner hosts a kayak program at Seneca Landing with patients from Walter Reed National Military Medical Center and veterans from the community.

A second phase of the project will include upgrades to improve safety, expand capacity, and enhance the existing boat ramp's accessibility for motorized boats, which is scheduled to begin this winter.

General Matters, Virtual Meeting Rules, and
How to Join a WebEx Meeting
General Matters

The meeting is a public meeting and subject to the requirements of the Maryland Open Meetings Act. The meeting will start with roll call to establish the presence of a quorum. Roll call will be conducted by the Chair, Vice-Chair, or designee. Members of the public are welcome to attend and observe the meeting but may only address the Commission if the Commission invites public input or when such input is otherwise scheduled or authorized by law. Whether input is otherwise authorized by law is subject to the advice of the Office of Law. During a meeting of the Commission, members of the public may only communicate with the Commission when the Chair gives them leave to do so. The meeting may be paused periodically to allow interpreters to switch places. There may be a momentary pause between speakers to allow people to unmute and mute their devices.

Ground Rules for the Virtual Meeting

1. Be on time. So that all agenda matters can be appropriately covered. Please log/call in on time. Try to log/call in before the meeting starts to familiarize yourself with the platform. (See instructions below for joining a WebEx meeting.) If you cannot avoid being late, please don’t interrupt the meeting by announcing your presence or asking for a review of what has transpired.

2. Be Prepared. Please review the meeting agenda and other relevant documents before the start of the meeting.

3. Be engaged. Commission members are expected to share ideas, ask questions, and contribute to the discussion.

4. Do not use a speakerphone. Speaker phones interfere with the quality of the meeting, so please avoid using that feature on your phone. Use a headset instead.

5. Always mute your device unless you are speaking. Unmuted devices create background noises, echoes, feedback and interfere with the quality of the virtual meeting. Use the mute button
when you are not speaking. This includes call-in users. The host will mute the device of participants who fail to mute their devices.

6. To speak. If you are using the video feature, raise your hand physically; or raise your hand by using the WebEx feature. The Chair will let you know when you may speak. Unmute your phone after you have been given the go-ahead to speak. Please mute your device when you are done speaking.

7. Before speaking, state your name. As a courtesy to all participants, please identify yourself each time before speaking.

8. Speak one at a time. Only one person may speak at a time. Please speak only when you have been given the go-ahead by the Chair.

9. Minimize or eliminate background distractions. As a courtesy to all participants, especially people who rely on visual cues, please minimize or eliminate background distractions. Also, please note that background noise disrupts the meeting for everyone and might prevent participants from hearing what is being said. When possible, choose a quiet location. Mute or turn off background noises.

10. Camera and lighting placement. Position yourself so that you are directly facing the camera and a lamp or other light source. This will ensure that you are clearly visible to other participants. Backlighting (light source behind you) affects the quality of your video and makes it harder for people to see you.

11. Avoid multi-tasking. So as not to be disruptive or distract other participants, please try not to multi-task.

12. Disable your call-waiting feature. If you call into the meeting, please disable your “Call-Waiting” feature. The clicking noise you hear on your phone when another call comes in can also be heard by other participants and will be distracting.

13. Do not put the conference call on “Hold”. Your “Hold” feature may play background music that will disrupt the meeting. If you have to take another call, please hang up and re-join the meeting after you complete your other call.

14. Stick to the agenda. Please stay focused and stick to the agenda so that the meeting does not run over.
15. Avoid side conversations. The process is intended to be openly deliberative, so please try not to “chat” with other participants.

16. Ask for clarification. If you miss something or do not understand, ask for clarification.

17. If you must step away. Please announce if you must leave the meeting.
